

CMP-PHP700

Battery Actuated Hydraulic Pump

Introducing the ultra-light and ergonomic battery-operated hydraulic pump, designed for optimal performance and ease of use. It has a durable, robust bodyshell and the stable base with balanced centre of gravity ensures superior handling.

Featuring advanced electronic and mechanical protection, it safeguards against overpressure and overheating. Operating at an impressive 700 bar (10,000 psi), this pump delivers powerful performance, making it ideal for demanding tasks in any environment.

TECHNICAL DATA	
ETIM Classification	EC001185
Max Operating Pressure (BAR/PSI)	700 / 10,000
Dimensions L X W X H (mm) L X W X H (Inches)	330 X 250 X 160 13.0 X 9.4 X 6.3
Weight (Including Battery) (kg) (lb)	5.67 12.5
Weight (Bare Unit) (kg) (lb)	5.05 11.1
Battery Capacity (Ah)	5
Battery Voltage (V)	18
Battery Charging Time (mins)	75
Container Type	Hard Plastic Tool Case
Operating Temperature (°C)	-10 to +60
Hight Pressure Flow Rate (L/min)	0.15

Features

- Light and well balanced for ergonomic handling
- Strong bodyshell and stable base
- Electronical and mechanical protection from overpressure and overheating
- High performance motor ensuring maximum operating speed
- Quick motor stop function ensuring safety and accuracy for the operator
- 2 hydraulic pump stages with increased speed of advance
